Main Conference Day	
21 February 2018	
09:00	<p>Keynote Speech</p> <p>Leveraging MSSPs in an Information Sharing Environment</p> <p>Frank J. Grimmelmann, President & CEO, ACTRA & Chair, National ISAO Standards Organization's ISAO Creation Workgroup (ACTRA is the FBI AZ InfraGard's wholly independent, but closely affiliated 'operational cyber arm')</p>
09:30	<p>How Can We Train our Workforce for the Next Generation of Cyber Threats?</p> <p>Sterling Kellis, Assistant Dean of Technology, University of Phoenix</p>
10:00	<div style="display: flex; align-items: flex-start;">  <div> <p>How can we Better Collaborate Between Security Functions and Integrate Non-Team Members into your SOC?</p> <ul style="list-style-type: none"> - What lessons can be applied from the integration of physical and cyber security functions with regards to the convergence between on-premise and managed security services? - Is everyone really moving to the cloud and what ramifications does it have for today's GSOC? - What does it mean to your company to 'own' a SOC as opposed to 'outsource' a SOC? <ul style="list-style-type: none"> - Does endpoint security always have to be inhouse? - How do you deal with the high cost of owning a SOC? <p>Pamela Davis, Cyber Security Threat Intelligence, American Airlines Kristy Westphal, Senior Manager, Security Tools, Charles Schwab</p> </div> </div>

	<p>John Forrister, Director Network and Information Security, The Translational Genomics Research Institute</p> <p>Jason Veiock, Senior Manager Global Employee Safety and Security, GoDaddy</p> <p>Jeff Reider, Manager Global Risk and Production Security, Paramount Pictures</p> <p>Moderated By: Dave Philistin, CEO and Founder, Omnificent</p>
10:40	<p>MORNING BREAK AND VISIT TO EXHIBITION AREA</p>
11:10	<p>Behavioural Analytics of SOC and MSS Employees: If your SLA essentially states that you will have employees 'staring at a screen' why will an outsourced service be any more engaged and effective than an inhouse function?</p> <p>Fireside Chat</p>
	
11:40	<p>How can Public and Private Sector Stakeholders Foster a Better Working Environment and What are the Security Considerations to Overcome when Engaging in a Managed Service Relationship?</p> <p>Special Agent Paul Schaaf, FBI</p>
12:10	<p>Discussion Panel:</p> <p>Uncovering the Emerging ISOC (Intelligent Security Operations Centre): What does Contextual Information or Actionable Intelligence Mean for your Organization?</p> <ul style="list-style-type: none">- Is the future automated or does AI mean nothing without context?- Is the danger of false negatives greater than false positives?- Should we empower security professionals at all levels to intervene as opposed to report threats to other functions? <p>Michael Goedecker, CEO, Hakdefnet GmbH</p>
	
12:50	<p>Networking Lunch</p>
14:00	<p>Are Most Managed Security Services Simply 'Data Aggregators'? How Should You Effectively Manage One?</p> <p>Mannie Romero, Executive Director, Office of the CISO, Optiv</p>

<p>14:30</p> <p>Spotlight Session</p> 	<p align="center">Understanding the Importance of Third Party Security: If we accept that an MSS has to service multiple clients, is it possible to solve the security and data segmentation challenges caused by multi tenancy issues?</p> <p align="center">Michael Peters, CEO, Lazarus Alliance</p>
<p>15:10</p>	<p align="center">COFFEE AND NETWORKING BREAK</p>
<p>15:40</p>	<p align="center">Understanding the Importance of Hybrid Working Relationships Between Security Professionals, SOCs and Third Parties: Considerations for Training, Technology and Processes</p> <p align="center">Steven Allison, Principal Cyber Security Strategist, Symantec</p>
<p>16:10</p> 	<p align="center">Discussion Panel:</p> <p align="center">What will the Security Operations Centre of the Future Look Like?</p> <ul style="list-style-type: none"> - Will the high cost of SOCs ever come down and does it matter to business operations if GSOC ROI can be demonstrated? - Do MSSs enable even the smallest businesses to harness global enterprise level SOC capabilities? - Is the future of the Operations Centre 'modular' meaning that e.g. Tier 1 is outsourced but other tiers are insourced? - In five years' time will we still be debating the benefits and challenges of SOC automation, outsourcing or virtualization? <p align="center">Ed Vasko, President & CEO, Terra Verde Ian McClarty, President, PhoenixNAP Mark Mattei, Director MSS Operations, Kudelski Security Guy Morgante, President Managed Services, Northland Controls</p> <p align="center">Frank J. Grimmelmann, President & CEO, ACTRA & Chair, National ISAO Standards Organization's ISAO Creation Workgroup (ACTRA is the FBI AZ InfraGard's wholly independent, but closely affiliated 'operational cyber arm')</p>
<p>16:50</p>	<p align="center">Chairperson's Closing Comments</p>
<p>17:00</p>
